# INVESTMENT INCENTIVE SCHEMES

# FUNDAMENTALS OF THE INCENTIVE SYSTEM IN TÜRKİYE

## REGIONAL PERSPECTIVE

Türkiye is divided into 6 regions according to the industrialization level. Region 1 consists of the most developed cities, and Region 6 includes least developed cities. The aim of this perspective is to contribute to the development of less developed regions by encouraging investment.

**REGION 1**

**REGION 6**

The rate of incentive items increases gradually from Region 1 to 6.

## PRODUCT PERSPECTIVE

On the other hand, there are a few exceptions to the regional perspective. For example, while medium-high tech products can benefit from Region 4 incentives, high tech products can benefit from Region 5 incentives independent of the investment region. There is an also incentive program called “Project Based Incentives” which is a tailored scheme to attract investments having high importance for Türkiye.

# INCENTIVE REGIONS & PROVINCES OF TÜRKİYE

The scope of the support instruments varies depending on the **development levels of the regions.**

In Türkiye's Incentive Scheme, investments in **less developed regions** are able to receive higher incentives.

Since the districts of some provinces are considered as a **sub-region**, investments in these districts can benefit from the incentives of the **upper region.**

#### FAQ: How Does the Corporate Tax Reduction Support Work?

Investment expenditures could be subject to corporate tax reduction = TRY 50,000,000

Investment Location = Region 4

Tax Reduction Rate for Region 4 = 70%

Reduced Tax Rate = 6.6%

Investment Contribution Rate for Region 4 = 30%  
50,000,000 x 0.30 = TRY 30,000,000\* (upper limit of the corporate tax reduction support)

\*The value will be increased based on reevaluation every year.

Assuming that the investor will generate profits in the amount of TRY 10,000,000 per year.

Corporate Tax = 10,000,000 x 0.25 = TRY 2,500,000

2,500,000 x 0.70 (tax reduction rate) = TRY 1,750,000 of corporate tax can be subject to tax reduction; the remaining TRY 750,000 will be paid.

Unpaid taxes: 1,750,000 + 1,750,000 + 1,750,000 + ... + ... + ... + 1,750,000 = TRY 30,000,000

The tax reduction support will end once the total amount of taxes not paid reaches the upper limit.
